DR. BRYAN C. SWIFT JOINS ORTHOPEDIC CENTER OF FLORIDA

Fort Myers, Florida (October 20, 2015) - Orthopedic Center of Florida announced this week that Bryan C. Swift, D.P.M. is joining their staff at the Fort Myers based location and will also be practicing at their Bonita Springs office in the Bonita Community Health Center starting November 1, 2015.

Dr. Swift completed a comprehensive residency in foot and ankle surgery with rear foot and ankle reconstruction at Silverlake/Kaiser Permanente in Los Angeles, California. He trained with internationally renowned doctors specializing in foot and ankle trauma, reconstructive surgery, diabetic reconstructive surgery and ulcer prevention. Dr. Swift was extensively trained in biomechanics and conservative therapy to help prevent surgical intervention when possible. In addition, Dr. Swift has pursued specialized training in external fixation, minimally invasive surgical techniques, trauma surgery, plastic surgery techniques and reconstructive surgery focused on the foot and ankle.

“We are confident that Dr. Swift’s medical experience along with his commitment to treat patients with foot and ankle problems will provide a compassionate, individualized treatment plan. His value of conservative treatment prior to surgery make him a perfect fit for the Orthopedic Center of Florida and its mission; to help people maintain an active lifestyle, “ said Dr. Andrew Belis, a double board certified foot and ankle surgeon and partner at Orthopedic Center of Florida.

Along with nine other doctors and surgeons, Dr. Swift helps to ensure that the Orthopedic Center of Florida will continue to remain a leader in Orthopedics covering all aspects of this medical arena.

The Orthopedic Center of Florida is located at 12670 Creekside Lane, Fort Myers, Florida. For more information visit www.ocfla.net or call 239-482-2663 to schedule an appointment.
